Update Therapist List

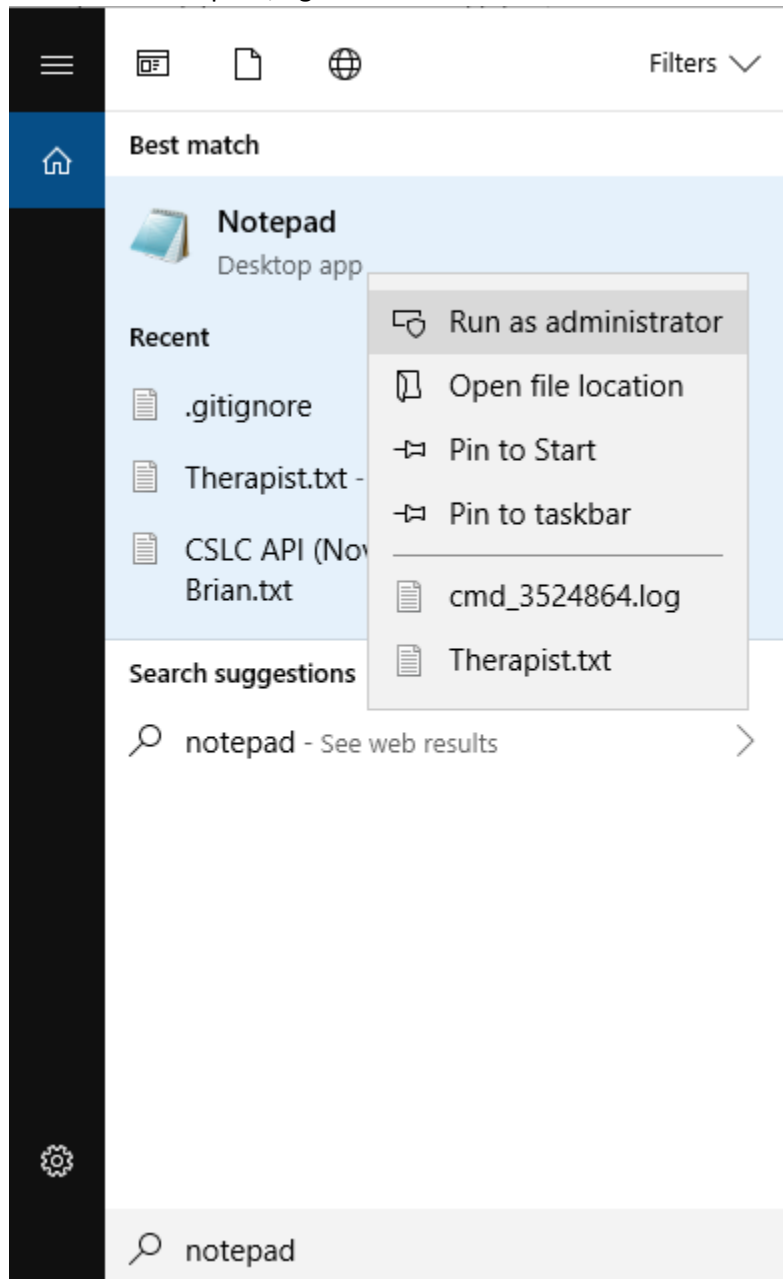

You need to close the Ika's Wellness Spa in order to update the therapist list.

By default the install directory of Ika's Wellness Spa is under on "C:\Program Files (x86)\TechCater\Ika Wellness Spa\".

1. Click Windows Start button

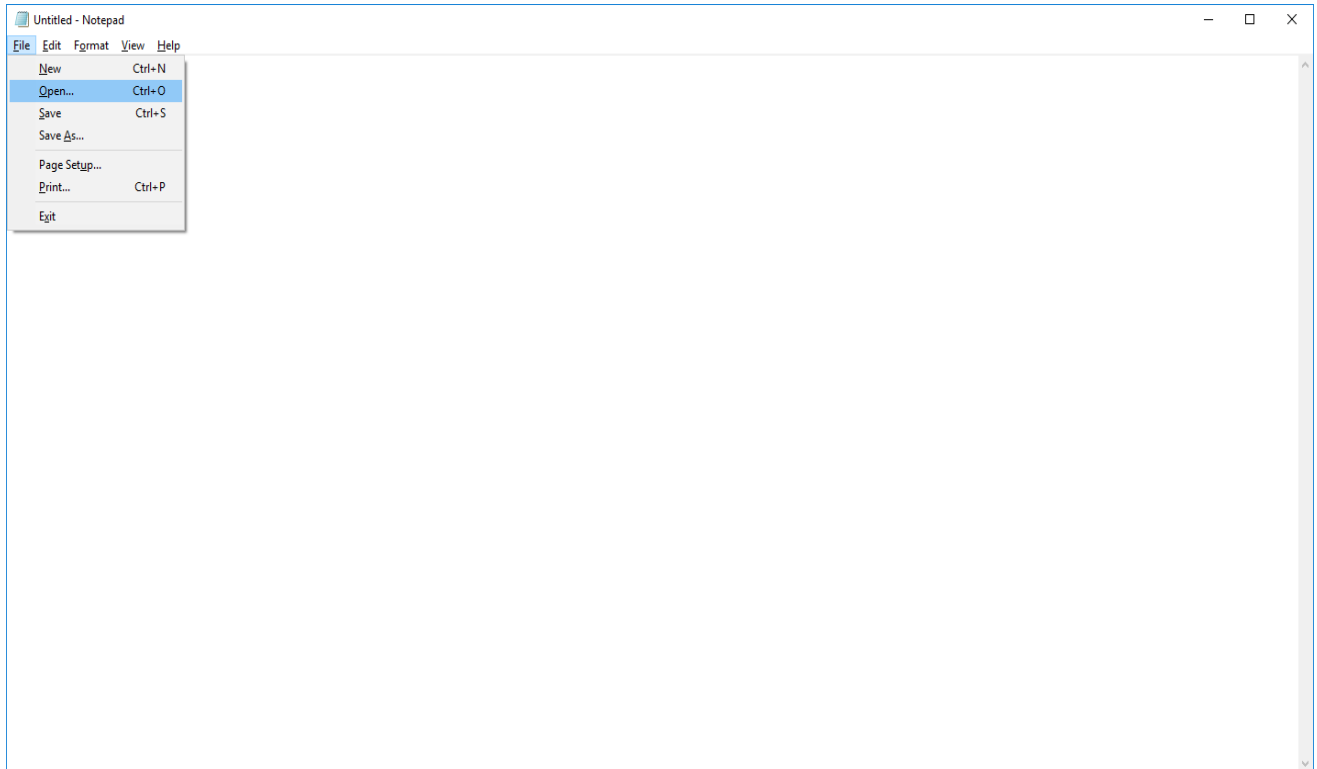

2. Search for "Notepad", right click and click Run as Administrator.

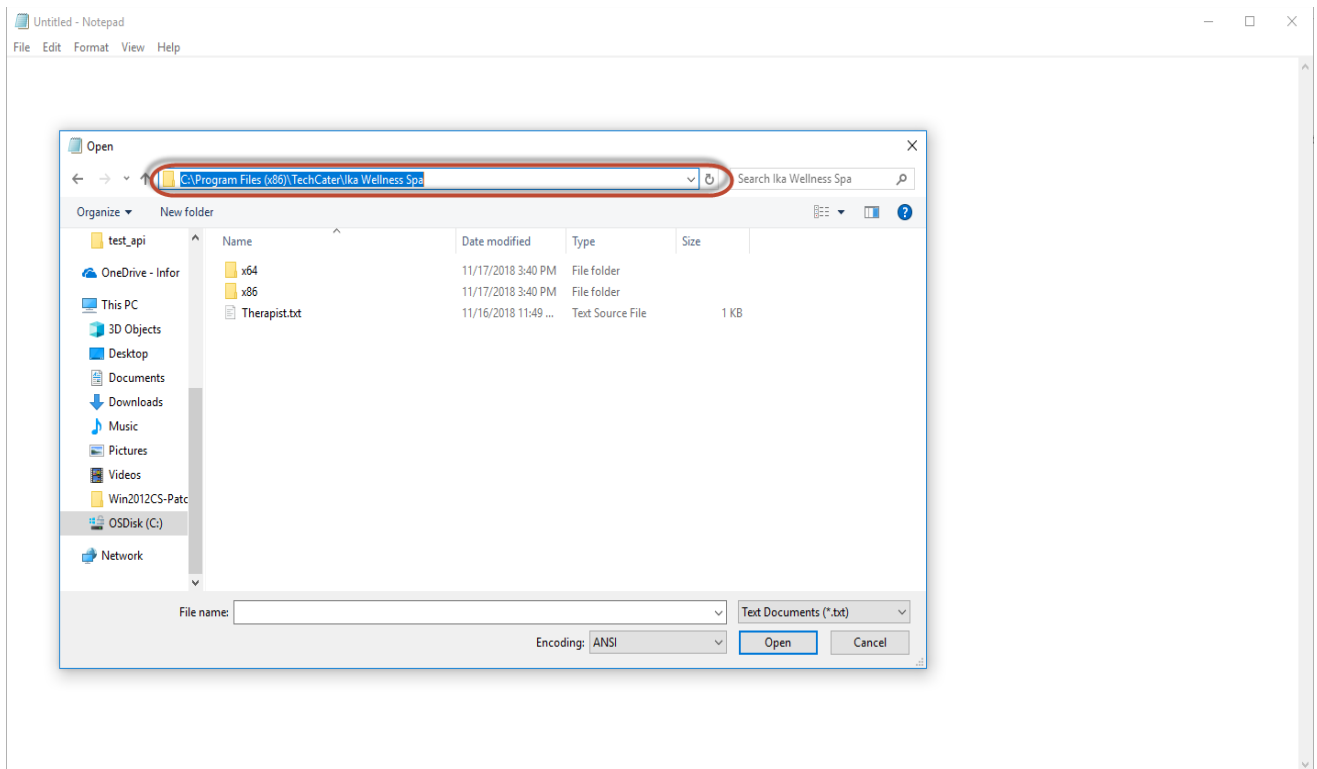

3. Click "Yes" when a User Account Control pops up.

4. Once the notepad is opened, Click File and Click Open.

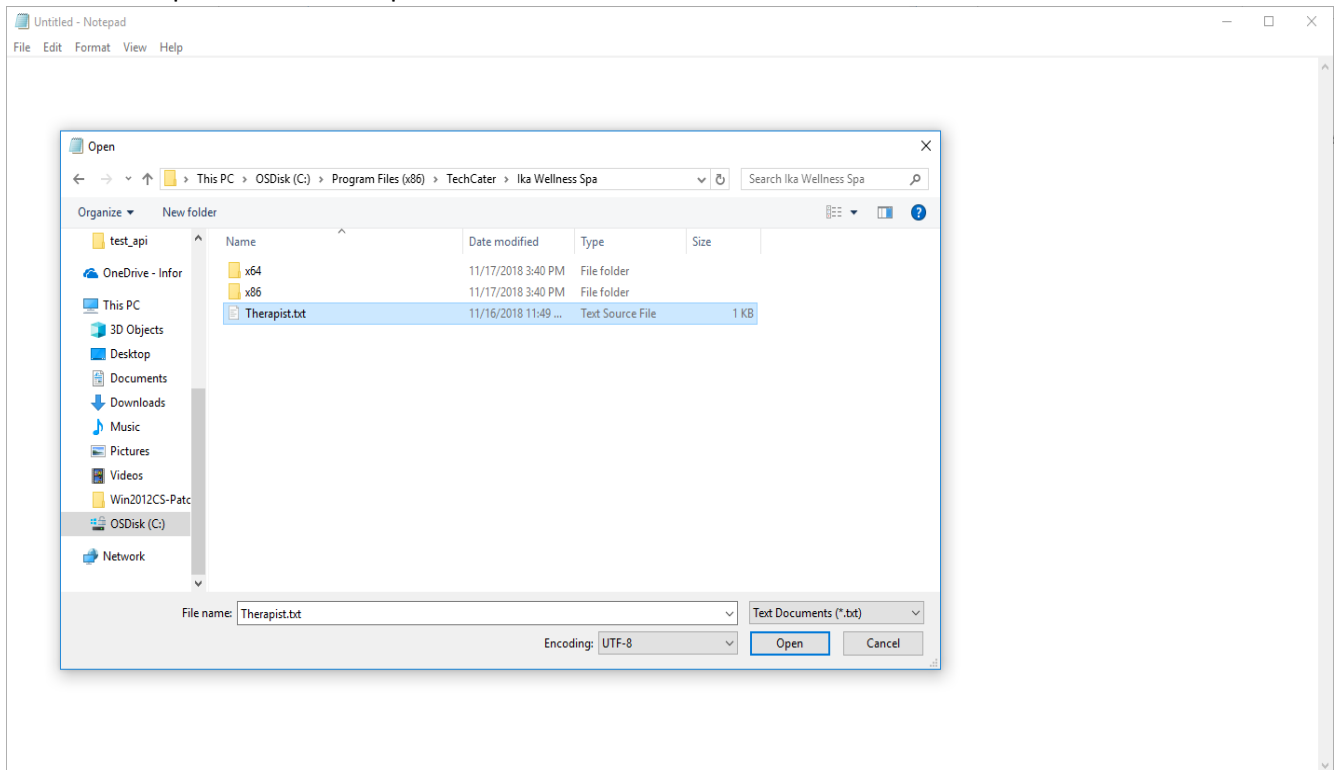

5. You can paste the install directory of Ika's Wellness Spa on the highlighted text field below.

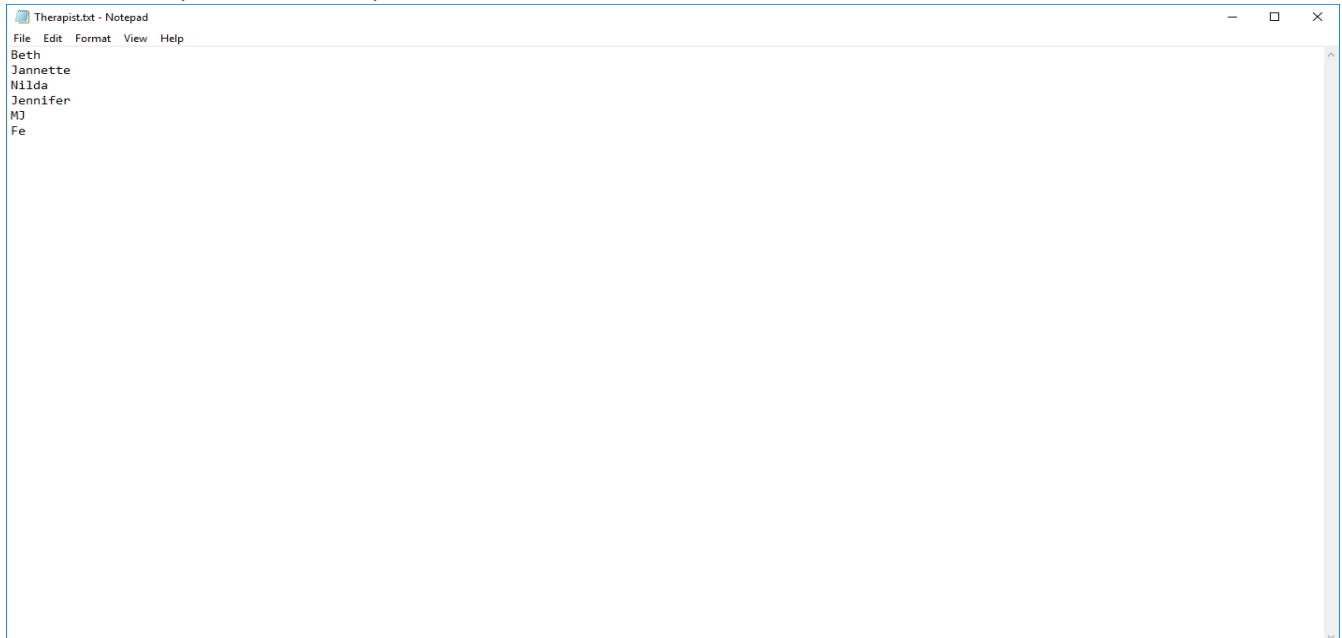

Install Directory: C:\Program Files (x86)\TechCater\Ika Wellness Spa

6. Choose Therapist.txt and click Open.

7. You can now update the Therapist list.

8. You can delete the existing Therapist or add a new one. Remember when adding a new Therapist is per line. Like shown on the screenshot above.
9. Once done updating the Therapist List. Click File and click save. You can now close this file and open Ika's Wellness Spa to verify the updated Therapist List. To verify you can go to Client Receipt and Therapist Report and click the therapist list and validate if the list was updated.
